Date: 21/04/2026

Time: 10:30

Location: DkIT PJ Carroll's Building

Attendees: Student, Supervisor

Key Discussion Points:

- **Progress Update:**

I was able to complete the “dirty” EDA. Now it is hard to read and still needs some improvement.

- **Challenges Faced:**

We were unable to meet the time we selected last time. We had to reschedule it to have it few days later.

EDA was complicated. There was no leading on what the best approach is and therefore the result not ideal.

- **Supervisor’s Feedback:**

Supervisor was satisfied with the EDA and recommended some improvements or what I could look at next time.

- **Next Steps:**

[MUST]Perform Supervisor suggestions for EDA improvement.

[MUST]Make the EDA file more readable.
