Attendees: Student, Supervisor

Key Discussion Points:

- **Progress Update:**

I was able to complete the ethical form and get approval from my supervisor

Any data cleaning or EDA was not possible, because of other Cas I had to complete

- **Challenges Faced:**

Not even starting EDA/ data cleaning

The ethical form took too much time, especially the section about explaining the idea to normal audience

- **Supervisor Feedback:**

Satisfied with ethical form

We had a conversation about the things I have to do for first 20% of overall dissertation. Explaining each step and discussing what I am going to do before next meeting.

- **Next Steps:**

Invite Samuel (Supervisor) to my repository on GitHub [MUST]

Perform Data Cleaning, EDA, Feature Analysis [MUST]

Possible more research [OPTIONAL]
