

Journal Entries

Date: 10/08/2026 – 16/08/2026

Progress:

During this week, I managed to complete the section focusing on methodology. I've also started on the 'Results and Discussion' section. At the moment, I've completed about 20 percent. I've managed to get in touch with my supervisor and I'm planning to meet him online via Microsoft Teams. I mainly plan to explain to him what I've been working on all this time and what stage I'm currently at. I hope to receive some feedback that will help me reach a proper conclusion of my study.

Result:

I have managed to complete the section on methodology, I have started work on the section on results and discussion, and I have managed to get in touch with my supervisor and arrange a meeting, which will take place on Monday 17 August 2026.

Next Step:

- Meet my supervisor and get feedback
- Finish all the sections
- Edit the previous sections (Interim Report) so that I can use them in my dissertation
